TELEDEX
ExpressNet® **AirLink**™

Wireless Connection Instructions:

- 1 Turn On / Enable your WiFi device.**
For Example: right click wireless icon in system tray, enable airport or flip wireless 'on-off' switch.
- 2 View available Wireless Networks or Scan for Networks.**
Each computer will have a wireless utility that has this feature.
- 3 Choose the Wireless Network named "PropertyName" and Connect.**
You may be prompted with a security warning; you must accept and chose to continue anyway.
- 4 Launch your Web Browser.**
Internet Explorer, Netscape Navigator, Safari, etc.
- 5 Follow Online Instructions.**
You may be prompted to click on a connect button or enter an access code. Complete the instructions to connect to the Internet.
You should now be connected!
- 6 You may now launch your email program, AOL or VPN connection.**
Please ensure that you have completed steps 1-5 prior to using any web based applications.

Wired Connection Instructions:

- 1 Locate the Ethernet Jack on the side of the Teledex Phone Base.**
The Ethernet Jack is on the right hand side of the telephone base and is labeled "Ethernet". You may need to contact the Front Desk to obtain an Ethernet cable.
- 2 Connect your Laptop using an Ethernet Cable.**
Connect your computer's Ethernet port to the Ethernet Jack from step 1. Please disable wireless on your laptop if it is equipped. Ensure that your LAN Connection is enabled.
- 3 Wait for computer to complete connection.**
Many computers will take a few moments to obtain an IP address and complete the connection. If your computer does not indicate that it is connected, please try rebooting your computer with the cable plugged in.
- 4 Launch your Web Browser.**
Internet Explorer, Netscape Navigator, Safari, etc.
- 5 Follow Online Instructions.**
You may be prompted to click on a connect button or enter an access code. Complete the instructions to connect to the Internet.
You should now be connected!
- 6 You may now launch your email program, AOL or VPN connection.**
Please ensure that you have completed steps 1-5 prior to using any web based applications.
